

Share our vision of a world where epithelioid hemangioendothelioma (EHE) is easily diagnosed and treatable.

Dear Friend of the EHE Foundation,

I invite you to partner with the EHE Foundation as a sponsor of the **2026 EHE Fun Run & Walk**, the most visible, community-driven awareness and fundraising event supporting research for epithelioid hemangioendothelioma (EHE).

This event is unique by design. While participation is virtual, families and supporters often bring it to life locally by organizing walks, runs, and gatherings within their own communities. This year, global registration will be offered for the first time, opening the door to broader engagement and international participation.

We offer a variety of sponsorship opportunities tailored to different organizational goals and levels of engagement. Each is outlined in the accompanying Sponsorship Opportunities packet. I would be happy to discuss which option best suits your organization. To support event planning and promotion, sponsorship commitments are kindly requested by **March 1, 2026**.

To confirm your sponsorship, please visit: FightEHE.org/fun-run-sponsorship

Thank you for considering a partnership that advances research, raises awareness, and improves the lives of people affected by EHE. If you have any questions or would like more information, please feel free to reach out to me directly via email or phone.

With gratitude,

Maggie Cameron, *living with EHE since 2009*
